

AAKASH ELECTRONICS

EST. 1994 · SP ROAD, BENGALURU

PRODUCT PORTFOLIO 2026

Electronic components for industry, education and curious minds.

A 30+ years old supply house stocking twelve categories of electronic components, from bulk industrial orders to hobby kits for students. This portfolio covers what we carry at the counter.

OUR STORY

30+ years on SP Road.

Founded in 1994 by Mr. Kiran Kumar. Still run by him. Still on the same counter.

MILESTONES

1994 TO TODAY

1994

The counter opens

Mr. Kiran Kumar starts a retail counter on SP Road for passive components and ICs.

1995

Bulk orders arrive

Manufacturing units and government organisations begin placing volume orders.

2000s

Cables and wires added

A full wire range for the contractors, integrators and electricians building the city.

2010s

Students come in

The radio assembly kit becomes one of the region's top selling educational products.

TODAY

Same counter, 30+ years on

Twelve categories, four kinds of customer, still run by the founder himself.

Mr. Kiran Kumar started on SP Road in 1994 as a retail counter for passive components and ICs. A year later, word had spread to the industrial belt, and manufacturing units and government organisations started placing bulk orders. A small shop became a trusted procurement partner serving customers across India.

Established as Aakash Electronics in 1994, the shop grew quickly. Manufacturing units, government organisations and educational institutions became regulars. The range of customers expanded, but the philosophy never changed: stock the right parts,

charge a fair price, and treat every question, whether for a thousand unit order or a single resistor, with the same care.

Through the 2000s, as Bengaluru's infrastructure expanded, Aakash added a full range of wires and cables for contractors, integrators and industrial electricians. Then came engineering students, and the radio assembly kit became one of the top selling educational products in the region.

Today, over thirty years later, Mr. Kiran Kumar still runs the shop from the same SP Road counter. Components across every category, sourced right. Honest pricing. And the same willingness to explain a datasheet as many times as it takes.

"Stock the right parts, charge a fair price, and take every question seriously. That has been our philosophy from day one."

Mr. Kiran Kumar

FOUNDER & OWNER • EST. 1994

WHY BUY FROM US

One counter, four kinds of customer.

INDUSTRY

Manufacturers, integrators and EMS shops

Volume pricing on bulk orders, GST invoicing, and BOM sourcing for production runs. Cash, UPI and NEFT accepted.

GOVERNMENT

Departments and public sector units

Supplying government organisations since 1995. Quotations against tender lists, proper GST documentation on every order.

INSTITUTIONS

Colleges, labs and robotics clubs

Lab consumables, development boards, sensors and project kits supplied against department requirement lists.

RETAIL

Walk in customers and makers

One resistor is a fine order. Bring your list, we pick it. Free advice at every counter, six days a week.

HOW WE WORK

01

Send your list

Share a BOM, tender list or handwritten note over WhatsApp or email.

02

Get a quotation

We confirm availability, quote line by line and flag substitutes where sensible.

03

Collect or dispatch

Pick up at the SP Road counter, or we dispatch across India with GST invoice.

WHAT WE STOCK

Twelve categories, every component you need.

Transistors, ICs, capacitors, resistors, connectors, cables, sensors, dev boards, LEDs, PCBs, tools and power adaptors, all at one counter on SP Road. The pages that follow cover each category in turn.

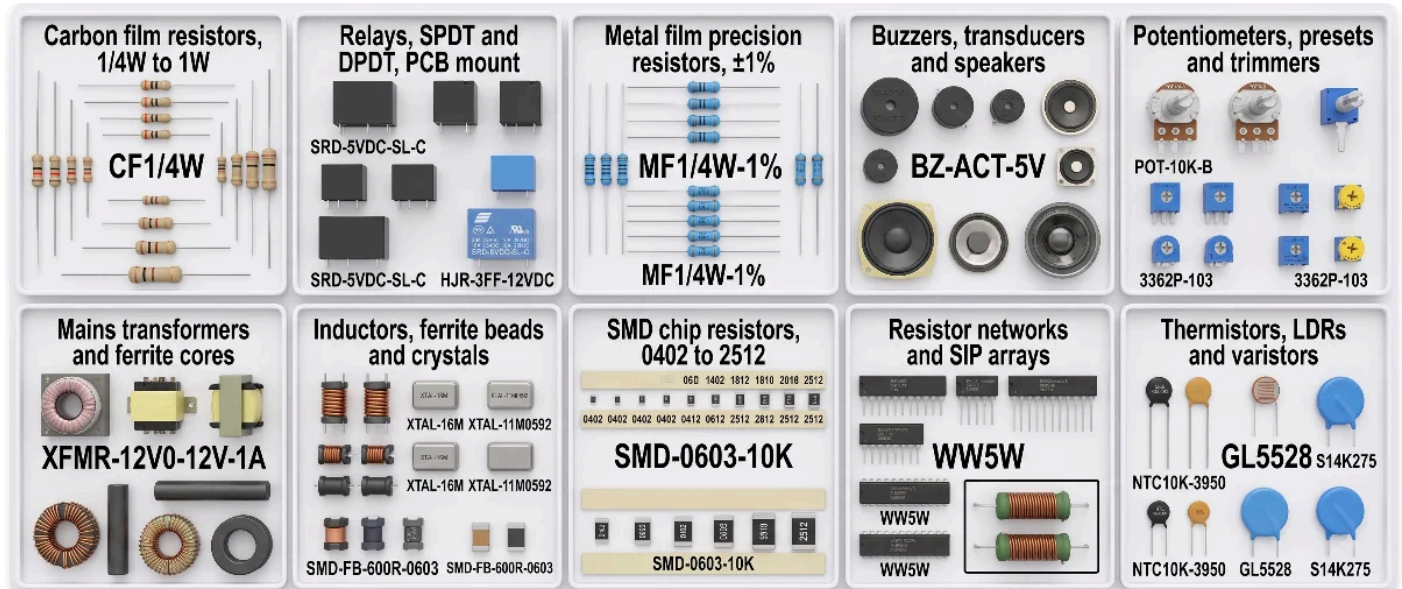

01 Resistors & Passives	05	07 Cables & Wires	11
02 Transistors & Diodes	06	08 Sensors & Modules	12
03 ICs & Audio Modules	07	09 Dev Boards & Kits	13
04 Capacitors	08	10 PCBs & Prototyping	14
05 Connectors & Audio Jacks	09	11 Tools & Soldering	15
06 LEDs & Switches	10	12 Power & Adaptors	16

This portfolio is a representative selection of what we stock, not an exhaustive inventory. We carry a much wider range in store and can source specific requirements on request. Please confirm availability before visiting.

01 Resistors & Passives

1,200+ SKUs

Carbon film, metal film and wire wound resistors in every common value, plus potentiometers, presets, inductors, crystals, relays, buzzers and mains transformers. Through hole and SMD.

PRODUCT FAMILIES

Carbon film resistors, 1/4W to 1W

Metal film precision resistors, $\pm 1\%$

Potentiometers, presets and trimmers

Inductors, ferrite beads and crystals

Resistor networks and SIP arrays

Relays, SPDT and DPDT, PCB mount

Buzzers, transducers and speakers

Mains transformers and ferrite cores

SMD chip resistors, 0402 to 2512

Thermistors, LDRs and varistors

TYPICAL APPLICATIONS

Power supply design

Bias networks, snubbers, current sensing and inrush limiting on SMPS and linear supplies.

Panel and control gear

Relay switching, buzzers, indicator circuits and control panel wiring for machines.

Repair and rework

Drop-in replacements for failed resistors, presets and mains transformers in service work.

SUPPLY & PACKING

Resistors supplied loose or in 100 piece packs. E12 and E24 values held in depth; $\pm 1\%$ metal film stocked on request. Transformer secondaries from 3-0-3 to 18-0-18.

02 Transistors & Diodes

3,000+ SKUs

Over 500 part numbers across the BC, A, B, C, D, K and R series, plus the full diode range, thyristors, triacs and SMD equivalents in SOT-23.

PRODUCT FAMILIES

BC series small signal NPN and PNP

A and B series Toshiba small signal

C series NPN, TO-92 to TO-3P

D and K series power transistors

Signal diodes, general purpose

Rectifier diodes and bridge rectifiers

Zener diodes, 3.3V to 24V

Schottky, fast recovery and TVS diodes

SCRs, triacs and diacs

SMD transistors, MOSFETs and diodes

TYPICAL APPLICATIONS

Audio output stages

Complementary power pairs for amplifier output and driver stages, matched on request.

Switching and drivers

Low side switching, relay and solenoid drivers, level shifting on logic boards.

Rectification and protection

Bridge rectifiers, freewheeling diodes, zener clamps and TVS protection on inputs.

SUPPLY & PACKING

Small signal devices in 100 piece packs, power devices loose. Original and OEM grade parts kept separately; we will tell you which you are buying.

03 ICs & Audio Modules

1,800+ SKUs

Timers, op-amps, logic and motor drivers alongside a deep stock of audio power ICs in the TDA, LA, STK, AN, UM, UPC and KA series for repair and amplifier work.

PRODUCT FAMILIES

Timer ICs, 555 and 556 family

Op-amps and comparators

Motor driver and Darlington arrays

74HC and 74LS logic families

Shift registers and interface ICs

TDA series audio power amplifiers

LA series Sanyo audio ICs

STK series hybrid power ICs

AN, UM, UPC, KA and HA series

CD4000 CMOS counters and logic

TYPICAL APPLICATIONS

Audio amplifier repair

Direct replacements for TDA, LA, STK and AN series output ICs in service and PA work.

Timing and control

555 timers, comparators and op-amps for oscillators, PWM and sensor conditioning.

Motor and load driving

L293, L298 and ULN2003 for stepper, DC motor and relay bank control.

SUPPLY & PACKING

Supplied in tubes or antistatic strips. Both DIP and SOIC packages where available. Datasheets shared over WhatsApp on request.

04 Capacitors

2,000+ SKUs

Ceramic disc from 2pF to 330nF, radial electrolytics from 1μF to 4700μF, polyester film, tantalum, motor run capacitors and the full SMD MLCC range.

PRODUCT FAMILIES

Ceramic disc, 2pF to 330nF

Radial electrolytics, 1μF to 4700μF

Low ESR electrolytics for SMPS

Polyester and film capacitors

High voltage film, up to 250V

Tantalum capacitors, radial

Variable and trimmer capacitors

Motor run capacitors, 450V AC

SMD MLCC, 0402 to 0805

SMD tantalum capacitors

TYPICAL APPLICATIONS

Filtering and smoothing

Bulk electrolytics for rectifier output, decoupling caps across supply rails.

SMPS repair

Low ESR replacements for bulged or dried out capacitors in adaptors and TV boards.

Motor starting

Motor run and start capacitors for pumps, fans and single phase machines.

SUPPLY & PACKING

Voltage ratings from 6.3V to 450V. 105°C low ESR grades held for switching supplies. Ceramic and MLCC values available as assortment kits.

05 Connectors & Audio Jacks

640+ SKUs

RCA, XLR, DIN, BNC, SMA, USB, D-Sub, aviation and IEC mains connectors, plus banana posts, binding posts and DIN rail terminal blocks.

PRODUCT FAMILIES

RCA plugs, sockets and phono leads

XLR and DIN connectors

Banana plugs and binding posts

3.5mm and 6.35mm audio jacks

DC barrel and XT30 or XT60 power

USB PCB sockets, A, micro and Type-C

RF connectors, SMA, BNC and N-type

Aviation and circular GX connectors

D-Sub 9, 15 and 25 way with shells

IEC mains inlets and DIN rail terminals

TYPICAL APPLICATIONS

Audio and studio work

RCA, XLR and jack terminations for mixers, amplifiers and stage cabling.

Instrumentation panels

Banana posts, aviation connectors and D-Sub for test rigs and machine panels.

Product assembly

USB, JST and DC barrel sockets for enclosures and production wiring harnesses.

SUPPLY & PACKING

Male and female halves sold separately or as sets. Panel mount and PCB mount variants stocked side by side. Gold plated options on the audio range.

06 LEDs & Switches

280+ SKUs

5mm and 3mm LEDs in every colour, flat candy types, high brightness domes, neon indicators, SMD LEDs and the full range of tact switches.

PRODUCT FAMILIES

5mm round LEDs, diffused

3mm round LEDs, all colours

Flat and candy LEDs

High brightness dome LEDs

Neon indicator bulbs, 220V

Tact switches, 6×6 PCB mount

Tact switches, 12×12 panel height

SMD LEDs, 0402, 0603 and 0805

TYPICAL APPLICATIONS

Status indication

Panel and PCB indicators on instruments, chargers and control boards.

Signage and displays

Bulk 5mm LEDs for scrolling displays, name boards and decorative lighting.

User input

Tact switches for keypads, reset buttons and front panel controls.

SUPPLY & PACKING

LEDs supplied loose or in 100 piece colour packs. Diffused and water clear lenses both stocked. Switch actuator heights from 4.3mm to 14mm.

07 Cables & Wires

320+ SKUs

Hook-up wire, silicone high flex, magnet wire, jumper sets, ribbon cable, coax, patch cords and heavy gauge power wire, cut to length. Added in the 2000s for contractors and integrators.

PRODUCT FAMILIES

Solid and stranded hook-up wire

Silicone high flex wire, 14 to 20 AWG

Enamelled magnet wire for winding

Dupont jumper sets and ribbon cable

Battery holders and snap leads

Coaxial and shielded twisted pair

Heavy gauge power wire, up to 32A

Ethernet, HDMI and USB patch cables

Heat shrink, ties and spiral wrap

Lugs, ferrules and crimp terminals

TYPICAL APPLICATIONS

Panel and machine wiring

Multistrand hook-up and heavy gauge power wire for control panels and industrial installs.

Coil and transformer winding

Enamelled magnet wire in fine gauges for rewinding coils and transformers.

Prototyping and lab use

Dupont jumper sets, ribbon cable and breadboard leads for benches and teaching labs.

SUPPLY & PACKING

Sold by the metre or full spool, cut to your length at the counter. Colour coded stock for standard wiring conventions. Lugs and ferrules crimped on request.

08 Sensors & Modules

640+ SKUs

The widest section of the catalog. Temperature, gas, motion, IMU, biomedical and optical sensors, plus displays, radios, relay boards, motors and drivers.

PRODUCT FAMILIES

Temperature and humidity sensors

Ultrasonic, IR, PIR and laser ranging

MQ gas and air quality sensors

Pressure, IMU, compass and light

Load cells, flex and force sensors

Colour, gesture and fingerprint

Bluetooth, Wi-Fi, LoRa and RF modules

LCD, OLED and 7 segment displays

Relay boards and RTC modules

Current, voltage and Hall sensing

Servos, steppers, drivers and pumps

Keypads, joysticks and encoders

TYPICAL APPLICATIONS

IoT and monitoring

Temperature, humidity, gas and current sensing nodes with Wi-Fi or LoRa uplink.

Automation and safety

PIR, ultrasonic and Hall sensing for access control, counting and interlocks.

Academic projects

Complete sensor sets supplied against college and lab requirement lists.

SUPPLY & PACKING

Modules supplied in antistatic bags with header pins. Breakout and bare sensor versions both stocked. Bulk quantities for lab batches quoted per department list.

09 Dev Boards & Kits

180+ SKUs

Arduino, ESP32, Raspberry Pi, STM32 and 8051 boards, programmers and shields, plus curated project kits. Our radio assembly kit has been a student bestseller for over a decade.

PRODUCT FAMILIES

Arduino Uno, Nano, Mega and Pro Mini

ESP8266 and ESP32 boards

Raspberry Pi, Pico and single boards

STM32 and ARM Cortex boards

AVR, PIC and 8051 bare ICs

Shields and add-on modules

Programmers and debug tools

Starter and component assortment kits

Radio, 555 and DVM assembly kits

Robot chassis and automation kits

TYPICAL APPLICATIONS

Teaching and lab batches

Class sets of boards and kits supplied against department purchase lists.

Product prototyping

ESP32, STM32 and Pi boards for proof of concept and small production runs.

Student projects

Radio, DVM and 555 assembly kits with all parts and instructions included.

SUPPLY & PACKING

Boards tested before dispatch. Kits packed complete with components, PCB and assembly sheet. Programmers and USB leads available as add-ons.

ROBOT-4WD-KIT							

10 PCBs & Prototyping

210+ SKUs

Breadboards, perfboard, copper clad laminate and the etching supplies to go with it, plus IC sockets, headers, terminal blocks and SMD adapter boards.

PRODUCT FAMILIES

Breadboards, 170 to 830 tie point

Perfboard, stripboard and veroboard

Copper clad boards for etching

DIP IC sockets, 8 to 40 pin

Pin headers, male, female and right angle

Screw terminal blocks and JST sets

ZIF and PLCC sockets

SMD to DIP adapter boards

Etchant, transfer film and drill bits

Card slots, SIM holders and FPC connectors

TYPICAL APPLICATIONS

Bench prototyping

Breadboards and jumper sets for quick circuit trials before committing to a PCB.

One-off builds

Perfboard, stripboard and IC sockets for hand-built and repaired assemblies.

In-house PCB making

Copper clad laminate, etchant and transfer film for single board fabrication.

SUPPLY & PACKING

Breadboards from 170 to 830 tie points. Copper clad in single and double sided, cut to size on request. Headers sold as 40 way strips, snap to length.

11 Tools & Soldering

490+ SKUs

Soldron irons and temperature controlled stations, solder wire and flux, hot air rework, hand tools, ESD supplies and bench test equipment.

PRODUCT FAMILIES

Soldering irons, 25W to 60W

Temperature controlled stations

Solder wire, leaded and lead free

Flux paste, pens, wick and pumps

Cutters, pliers, tweezers and strippers

Hot air rework stations and nozzles

Solder paste and SMD stencils

Multimeters, clamp meters and probes

Bench power supplies

ESD straps, mats and cleaning supplies

TYPICAL APPLICATIONS

Service and repair benches

Temperature controlled stations and hot air rework for board level repair.

Production and assembly

Solder wire, paste and flux in workshop quantities with ESD handling supplies.

Testing and measurement

Multimeters, clamp meters and bench supplies for fault finding and QC.

SUPPLY & PACKING

Soldron and equivalent brands stocked. Spare tips, elements and nozzles held for every station we sell. Solder wire in 50g to 500g reels, leaded and lead free.

12 Power & Adaptors

880+ SKUs

SMPS and laptop adaptors from 5V to 20V, buck and boost converters, battery management, cells and holders, switches, fuses and EMI suppression.

PRODUCT FAMILIES

SMPS and laptop adaptors, 5V to 20V

Buck, boost and buck-boost converters

Linear regulators and AC-DC modules

Li-ion chargers and BMS boards

Batteries, cells and holders

Toggle, slide, rocker and key switches

Push buttons and rotary switches

Glass, automotive and resettable fuses

Fuse holders, PCB and inline

EMI filters, chokes and varistors

TYPICAL APPLICATIONS

Equipment and adaptor supply

SMPS and laptop adaptors for instruments, routers, CCTV and display panels.

Battery powered products

Li-ion charging, BMS protection and buck-boost regulation for portable builds.

Protection and control

Fuses, PTCs, EMI filters and panel switches for safe mains and DC distribution.

SUPPLY & PACKING

Adaptors from 5V to 20V, 1A to 5A, with standard barrel tips. Converter modules tested for output before dispatch. Fuses in 20mm glass and automotive blade types.
